

MONTHLY
OCTOBER 2025

Growth & Opportunity *Ahead*

As students continue to settle into the rhythm of the new school year, we are celebrating some exciting news for Wisconsin families. The Department of Public Instruction just released new data showing historic growth in the state's private school parental choice programs, which are now serving more than **60,000** students across four programs. More families than ever before are finding the right educational fit for their children, and more schools are stepping up to provide excellent education options in communities across the state. With the statewide enrollment

cap set to lift in 2026-27, we are hopeful this momentum will continue to expand opportunities for even more Wisconsin families.

SCW is proud to stand alongside the schools, leaders, and parents who make this possible. While the cap expiration will bring changes to how the statewide program enrollment operates, SCW will be there to assist however we can. We are looking forward to seeing what the rest of this year brings!

HISPANIC HERITAGE MONTH *winners*

Congratulations to this year's Hispanic Heritage Month art competition winners! We had an incredible turnout with 315 pieces of artwork from 17 schools across the state. The winning pieces creatively portrayed the contest theme, "Honoring the past, inspiring the future", and are currently being displayed in the Wisconsin State Capitol.

We posted the other finalists on our Hispanics for School Choice Facebook page—[click here](#) to take a look.

WE'VE MOVED!

The SCW office is now located in Brookfield, Wisconsin. See our new address at the bottom of the page for any mailing updates. Our phone/email contact information is still the same—reach us at (414) 319-9160 or scw@parentchoice.org.
