

Forward with *Purpose*

As students walk across graduation stages and schools celebrate the end of the school year, we are reminded of the meaningful role Choice schools play in shaping the future of Wisconsin families and communities. Schools have spent the year supporting students academically, spiritually, and personally, and none of this would be possible without the dedication of teachers and staff. This month, we have spotlighted a few **great teachers** at Choice schools (see next page), and we recognize all educators who work tirelessly on the front lines of education. Their commitment leaves a lasting impact on students and families alike, and we remain grateful for all they do throughout the year.

While schools finish the year strong, School Choice Wisconsin Action continues working to protect and strengthen the future of parental choice in Wisconsin. Recently, SCWA officially joined as an **intervenor** in the current lawsuit challenging Wisconsin's parental choice programs. This lawsuit threatens the educational opportunities relied upon by tens of thousands of students

and families statewide. In partnership with the Wisconsin Institute for Law & Liberty (WILL), Choice schools, parents, and students, we stand prepared to defend educational freedom and ensure families continue to have access to the educational environments that best fit their children's needs.

Looking ahead, summer will be a season of preparation and growth for our organization as we continue building resources to better serve schools and families. Our team is developing additional **training** opportunities for Choice schools focused on best practices, legislative education, program updates, and key deadlines to help schools successfully navigate the year ahead. We are also excited to begin creating a **new resource** designed to help parents more easily search for schools that align with their family's educational needs. Through every initiative, our overarching goal remains the same: to support schools, empower families, and strengthen parental options across Wisconsin for generations to come.

**We can't do it
without you!**

Support our mission to sustain vibrant, quality options in K-12 education in Wisconsin. ***All new donations get matched!***

DONATE

Thank you, teachers!

SCW has been spotlighting teachers at Choice schools this month to celebrate their dedication to supporting Wisconsin students. Read about a few of them below:

Scott Zondag, Shoreland Lutheran

Scott teaches trades and helps connect his students with local businesses who are looking for employees prepared to enter the work force.

Mark Moldenhauer, Wisconsin Lutheran

Mark advocates for his students to take rigorous courses and meets them where they're at to elevate their skills and confidence.

Elizabeth Long, St. Anthony's School

Elizabeth serves her community through kind, knowledgeable, and faith-centered service as a guidance counselor.

Ann and Tony Maas, Catholic Memorial

Ann and Tony are retiring after a lifetime of service at CMH, having dedicated their careers to helping students succeed in and out of the classroom.

Rachel Daun, Eastbrook Academy

Rachel takes a collaborative approach to teaching by providing leadership amongst her colleagues and going above and beyond to communicate with parents.

Claire Brefka, St. Anthony's School

Claire supports English Language Learners and nurtures students' Catholic identity, all contributing to strengthen their school community.

In case you missed it...

Educational Webinars: WI Acts 57 + 89

Recently, SCW has hosted two webinars in partnership with the Wisconsin Institute of Law & Liberty (WILL) on passed legislation: WI **Act 57** (sexual misconduct notification) and WI **Act 89** (employee/volunteer and student communication).

These webinars are free on our website, and we offer even more training opportunities for member schools. Contact us for more details!
